6.1.2

Auditor's Report

IQAC has conducted academic audit in the month of September 2019 for all the departments. Audit was on Leadership & Governance of departments. All the departments have to create strategies to identify the USP for the development of the department. Vision & Mission for the department in terms of academics as well as general growth should be more clear. FAD department has to improve the strategy for future activities. MCA , MBA &MCom departments have to work on next level growth in terms of research & development.

IQAC has conducted audit on AQAR criteria completion status for all the departments. All the departments are having pending on critical criteria related to curriculum enrichment, field projects, feedback system etc. Fashion & Apparel Designing Department is having pending on inclusion of situatedness , contribution to local population, human values and professional ethics, best practices etc. MBA, MCOM & MCA has pending on soft skills development, remedial coaching, bridge courses etc. The Department of Hotel Management is having pending on h index of the faculties with publications, collaborations etc.

IQAC has conducted audit on Calendar of Events, minutes register, feedback on guest lectures, website, attendance register, leave application of the students and files maintained by HOD including notice board. It is observed that most of the departments completed 60%-70% activities which are mentioned in Calendar of Events. All the departments have to maintain the guest lecture details in sequence and feedback analysis of the students has to be maintained. For updating the website Geo tagged photos to be taken, one page report on the visit and the analysis on the student's feedback report should be included in the website. All the attendance entry in register has to be correlated with the absentee/leave applications.

In March, 2021 audit has been conducted on Curriculum planning & development. Faculties have to include more activities and rubrics have to be maintained for the marks given for each activity. Faculties should prepare the PPT in standardised format.

Audit happened for the period up to 30.9.2021 .Which was on leadership issues included the points such as Lack of clarity on what is the need of the class hour and priorities between the HOD and department requirements. Some of the observations are, HOD lack on pro-activeness and preparedness for the audit. There is no specialised calendar apart from the overall academic calendar towards development of the department. No pep talks have been conducted with the faculty members on their career growth.

IQAC has conducted audit in the month of November, 2021for all the departments. It is observed that most of the departments have to maintain the class adjustments details in proper way. All the required documents have to be collected for the value added courses, experiential learning programmes etc.Faculty responsibilities details have to be informed to the faculty members in prior and signature has to be taken. Most of the ISO files signatures are missing. Some of the mentoring files are not having student's photographs and mentoring should happen regularly.
