MRS. RASHMI A
CHEMISTRY LECTURER – T. JOHN PRE-UNIVERSITY COLLEGE.

Mrs. Rashmi A. – a virtuoso of the periodic table and a maestro in the lab – has been igniting minds with the magic of Chemistry for over six years. With a test tube in one hand and curiosity in the other, she masterfully blends compounds and concepts, turning every lesson into an exciting chemical revelation. Her classroom is no less than a scientific theatre, where equations dance, reactions spark, and students are left awestruck by the unseen forces that govern the material world. Through the artful mix of theory and experimentation, she doesn't just teach Chemistry – she *makes it come alive*.

EDUCATION:

M.Sc from JSS College of Arts Commerce and science- Mysore - 73.16% - 2015
B.Ed from The institution of Education onkarmal somani college – Mysore - 90.47% - 2018

WORKSHOPS:

Attended various workshops organized by Pre- University Board.
Attended various workshops to improve teaching skills
