PRAMODINI ANGADI
Computer Science Faculty

Mrs. Pramodhini Angadi – the teacher who turns the world of computers into a canvas of possibilities. Known for her excellent presentation style and an inspiring blend of motivation and leadership, she doesn't just teach; she transforms learning into an experience. With a rare ability to simplify complexity, she delivers knowledge that sticks—clear, sharp, and impactful.

Her cooperative and understanding nature makes every student feel heard, while her classes resonate with an energy that encourages curiosity. When she brings the logic of Python to life, it's not just code on a screen; it's smart thinking in action, crafted with precision and creativity.

In her classroom, technology meets imagination, and every learner walks away a little more confident, a little more inspired.

Education:

MCA from VTU BELGAUM

Her rich teaching journey spans across disciplines and semesters:

- **Java and Internet Programming** with lab for B.Sc. (Computer Science) –
- **Computer Applications** with lab for B.Com
- **Fundamentals of Computers** with lab for B.Com
- **Data Structures** with lab for B.Sc.
- **Discrete Mathematical Structures** with lab for B.Sc.
- **Database Management Systems (DBMS)** for M.Com
- **Introduction to C** for M.Sc. (Mathematics)
